Web Development Projects

- **HR Management System**

Full Stack – Vue.js, Node.js, MySQL

Built a real-time employee tracking and performance monitoring system for HR managers. Implemented secure login (JWT), responsive UI, and RESTful API-based CRUD operations.

- **E-Commerce Website**

Full Stack – Vue.js, JavaScript, Node.js

Developed an online store with dynamic product listings and cart functionality. Integrated front-end design with back-end logic for seamless user experience.

[View Live](#)

- **Tetris Game**

Front-End – HTML, CSS, JavaScript

Recreated the classic Tetris game using vanilla JavaScript with real-time gameplay logic, responsive design, and interactive UI.

[Play Game](#)

- **Recreated Website (Elemental Challenge)**

Front-End – HTML, CSS, JavaScript

Cloned a professional design layout to improve front-end skills, focusing on layout structure, responsive design, and styling consistency.

[View Project](#)

- **Photography Portfolio Website (Elite Captures)**

Front-End – HTML, CSS, JavaScript

Designed and deployed a personal portfolio site to showcase photography work. Emphasized image presentation, minimalist UI, and smooth navigation.
